Issue details			
Reporting	There is no reporting commitment stated.		
Company information	Grupo Unicoba manufactures energy efficient technologies in LED lighting, portable batteries and energy storage.		
Firsts, records and certifications			
Proceeds description	The proceeds will go towards financing the restructuring of battery-producing subsidiaries. This will develop the operations surrounding the LFP batteries, which are more tolerant to full charging and can be sustained in high tension for longer. Therefore, this makes them more compatible for energy storage systems, PV systems, smart grids, telcos and numerous other functions.		
Climate Bonds view	We welcome the issuance of this green bond for energy storage and hope that there will be an up-to-date report regarding the proceeds allocation and impacts of the bond despite the absence of a reporting commitment.
