Climate Bonds INITIATIVE

## Global Growth remains strong

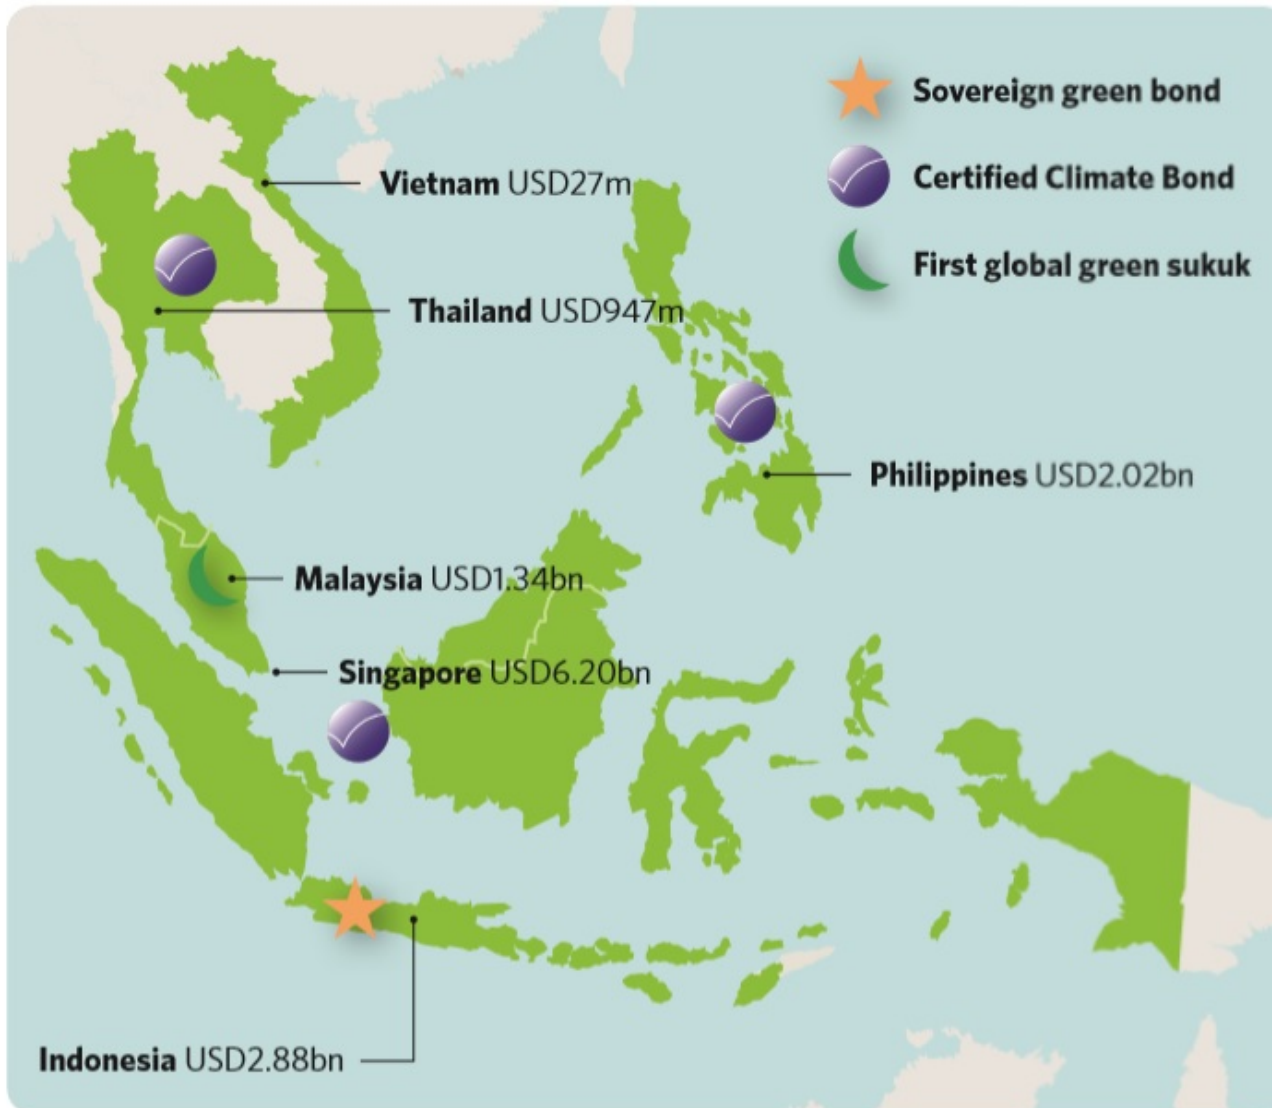

\*ASEAN issuance represents 3% of global total, 12% of Asia-Pacific in 2019

# ASEAN: strong growth dominated by Financial and non-financial issuers

# ASEAN green finance markets are at a different stage of growth

# ADB's support for Green Bonds in ASEAN+3 markets

## 1. REGIONAL FACILITY TO SUPPORT GREEN BOND ISSUANCE

- Guide issuers and underwriters through the process of green bonds issuance & post-issuance reporting
- Partner with industry experts such as the CGIF, Climate Bonds Initiative (CBI), International Capital Market Association (ICMA) and local regulators
- Provide support to partially offset green bond issuance and other associated costs
- Enhance the capacity of local service providers such as rating agencies to provide advice and external review services to issuers

## 2. DEMAND FOR GREEN BONDS PROMOTED

- Establish ASEAN+3 green bonds exchange traded fund and Green Bonds Index
- Create a regional green bond information section on the ABO

## Good Practices For Developing a Local Currency Bond Market: Lessons from ASEAN+3 Asian Bond Markets Initiative

This report shares the experiences of ASEAN+3 and provides a comprehensive picture on fostering a local currency bond market. Although every market is unique, some lessons from the region's varied experiences could still be drawn on how to expedite the process of bond market development in a developing economy.
