

**The Climate Bonds Initiative Green Bond Boot Camp** is an intense learning experience for professionals who want to be part of this new and exciting global market for Green Bonds. The two-day course includes five learning modules as well as case studies and tales from the tranches to provide a valuable starting point for new market participants.

The boot camp format consists of **20-25 participants** using intensive learning techniques as a group over a short period of time. The camp is facilitated by an experienced professional trainer and the modules are presented by green bond experts who work at the cutting edge of this dynamic market.

The objective is to help prepare the growing number of new and ambitious actors in green bond markets to play their role in scaling up financing of low carbon, climate resilient assets and infrastructure and building green investment.

The first of our Green Bond Boot Camps is on the 21st and 22nd of May in **New York City**.

Camps are also scheduled for **Sydney** in June, **Copenhagen** in August and **Paris** in September.
