Please return this form before COB **March 31<sup>st</sup> 2020** to [public.consultation@climatebonds.net](mailto:public.consultation@climatebonds.net)

Question	Response
Does this fulfill low-carbon aspirations for the agriculture sector? If not, could you provide reasons and examples.	
Do you feel that the assumptions and science underpinning this work are robust and the most appropriate and up-to-date criteria that we can do? Please provide examples of how to improve and specific examples if anything is missing.	
Do you agree with the assumptions that underpin the mitigation requirements? Is there anything else that needs to be considered? Please, provide as much detail or reference relevant scientific studies or other evidence to substantiate your response.	
Do you agree with the assumptions that underpin the adaptation and resilience requirements? Is there anything else that needs to be considered? Please, provide as much detail or reference relevant scientific studies or other evidence to substantiate your response.	
<b>Please use the space below to add any further comments on the Criteria. Please use page numbers and sections where possible when referring to the text itself.</b>
