

London Job: Market Analyst

Location: London Bridge
Salary: Competitive NGO rate
Position: Full time
Closing date: 12 August 2015

About the Climate Bonds Initiative

The Climate Bonds Initiative is an investor-focused NGO working to mobilise the \$100 trillion global bond market for climate change solutions. Our main work streams are data and market analysis, standards and certification and policy analysis. www.climatebonds.net

The role

We are looking for a Market Analyst to join our London team to manage our green and climate bonds database and associated work streams. The database provides data for the Climate Bonds Initiative public and partner-specific [green bond lists](#), our policy research and the green bond indices of S&P Dow Jones, Barclays & MSCI and Solactive.

We are a small team driven by a big mission; so each person on the team also pitches in on the other work streams from time to time. We are looking for a passionate individual who is intuitive, flexible and readily able to prioritise and manage a multitude of tasks.

Key Tasks

- Managing and updating the database with relevant bond issuance
- Providing periodic and custom data updates to key stakeholders and analysis for the Climate Bonds blog and wider research.
- Conduct research into new bond sectors
- Analyse green/environmental projects or assets
- Prepare quarterly and annual reports, including League Tables
- Written analysis and commentary on new green bond issuances

Person Specification

Essential

- Eligible to work in the UK
- Excellent MS Excel skills
- Proven ability to manage, analyse and interpret large data sets
- University degree in relevant subject or at least 2 years relevant work experience
- Attention to detail
- Motivated and a self-starter
- Flexible, and able to multi-task, prioritise and work to tight deadlines
- Excellent English communication skills, written and verbal
- Passionate about climate finance

Desirable

- Work experience in finance, particularly bond markets
- Experience using a Bloomberg terminal
