Train with the Leaders in Sustainable Finance

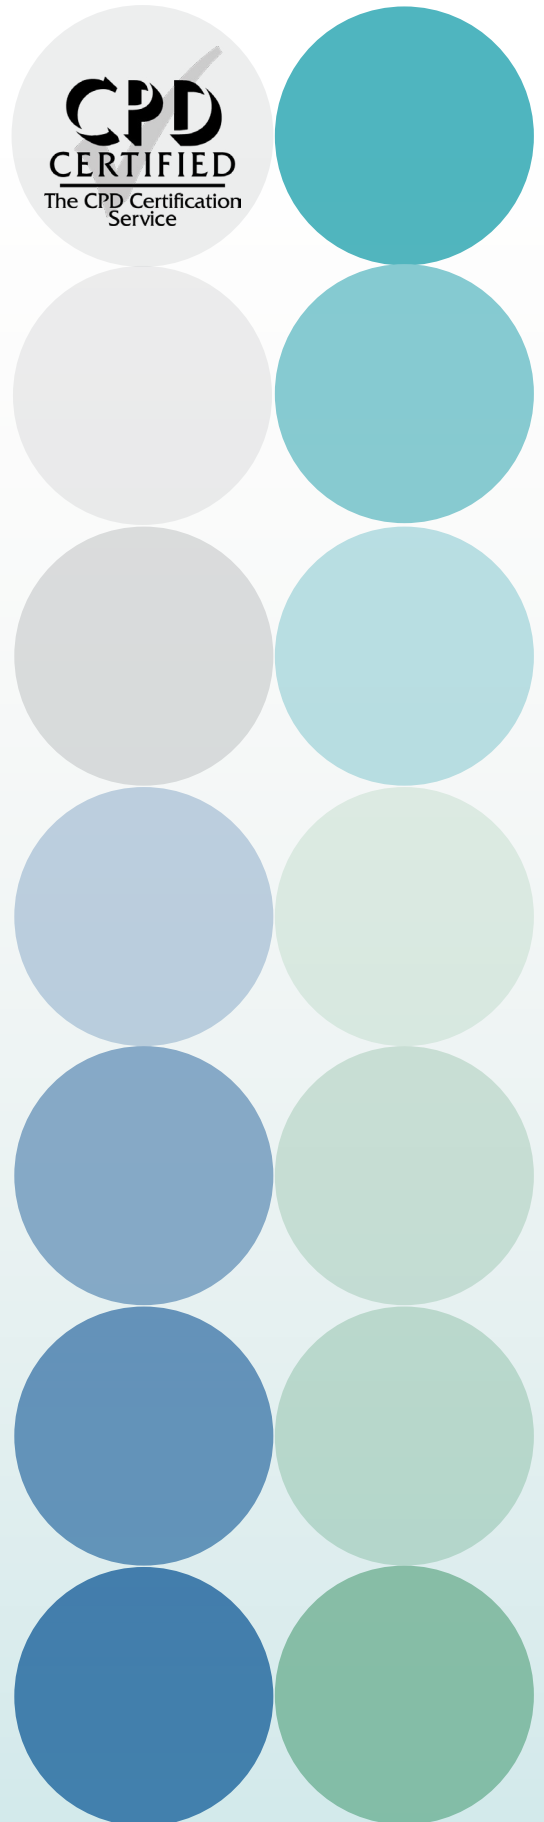

Introducing the Climate Bonds Training Academy

Trusted as an independent thought leader and pioneer in sustainable finance, Climate Bonds' delivers world-class training that draws on the latest research and data available.

Since inception, we've empowered over 3 000 professionals from across the globe to harness the potential of sustainable finance as a tool to support the transition to a low carbon economy.

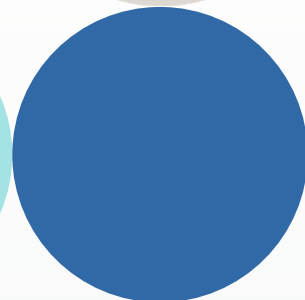

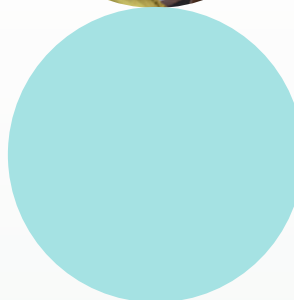

Our courses are designed for the real world, with content delivered using a combination of teaching formats, including learning modules, interactive discussions, Q&A, and case-study based exercises. Translation and simultaneous interpretation services are available in most languages, and selected courses in our portfolio are CPD (Continuous Professional Development) Certified.

For further information contact:

Climate bonds training academy. Robust, science-based, credible.

Keeping pace with fast-changing market developments, our course material is continually updated to reflect what's happening at the frontiers of sustainable finance.

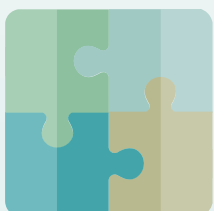

Let's get you up to speed in sustainable finance

Our current training programmes are organised into three categories:

FOUNDATIONAL COURSES

- Green, Social and Sustainability (GSS+) bonds training
- Roadmap to a credible and ambitious transition

DEEP DIVES

- Taxonomies
- Verification and certification
- Scaling up sub-national finance through thematic labelled bonds
- Green, Social and Sustainability bonds issuance process

SPOTLIGHT MODULES

- Green bonds
- Resilience bonds
- Sub-sovereign issuances
- Financing credible transitions

More modules available upon request

FOUNDATIONAL COURSES

Our most comprehensive type of course, foundational courses provide you with the building blocks needed to understand and engage with key topics in the field of sustainable finance.

Current foundational courses include:

GSS+ bonds training

A comprehensive overview of the GSS+ bonds market

GSS+ bonds training explores the thematic labelled bond market development to date, structure, benefits for those involved in the process, as well as the steps required to issue labelled bonds.

Duration:
7.5 hours
of learning

In-person:
1 full day or

Online:
3 sessions
of 2.5 hours
each

GSS+ bonds
basics

Setting the
scene

Process for issuing a bond
labelled green

Market
development

Roadmap to a credible and ambitious transition

Duration:
9 hours
of learning

In-person:
1.5 days
or

Online:
3 sessions
of 3 hours
each

Our second foundational course focuses on transitions. Learn how large emitters' entities, activities and assets can shift from today's high GHG emissions to meet the goals of the Paris Agreement and facilitate the growth of climate resilient economies.

Transition concept

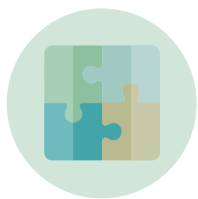

Transition finance

Thematic
bonds

Performance-linked
instruments

Deep dives

Our deep dives take you on a detailed and more technical journey into specific topics in the field of sustainable finance.

Duration:
6 hours
of learning

In-person: 1 full day, or

Online: Two sessions of 3 hours each.

Our current deep dive course topics are as follows:

Taxonomies

Verification and certification

Scaling up sub-national finance through thematic labelled bonds

GSS+ issuance process

Spotlight modules

Spotlight modules provide you with the ultimate level of flexibility. Perfect for time-crunched participants, these modules are designed to be shorter, and are offered in a variety of delivery formats - providing you with the opportunity to design your own learning experience.

Duration:
2.5 hours of learning (maximum)

Format:
Variety of delivery formats available.

Spotlight modules can be delivered in-person or online through public and/or private webinars – this means you can share the learning experience as widely as needed. Additional formats for content delivery include a choice of roundtables, case study tutorials, presentations, and question and answer sessions with our top experts. Current spotlight module topics include:

Green bonds

Resilience bonds

Sub-sovereign issuances

Financing credible transitions
